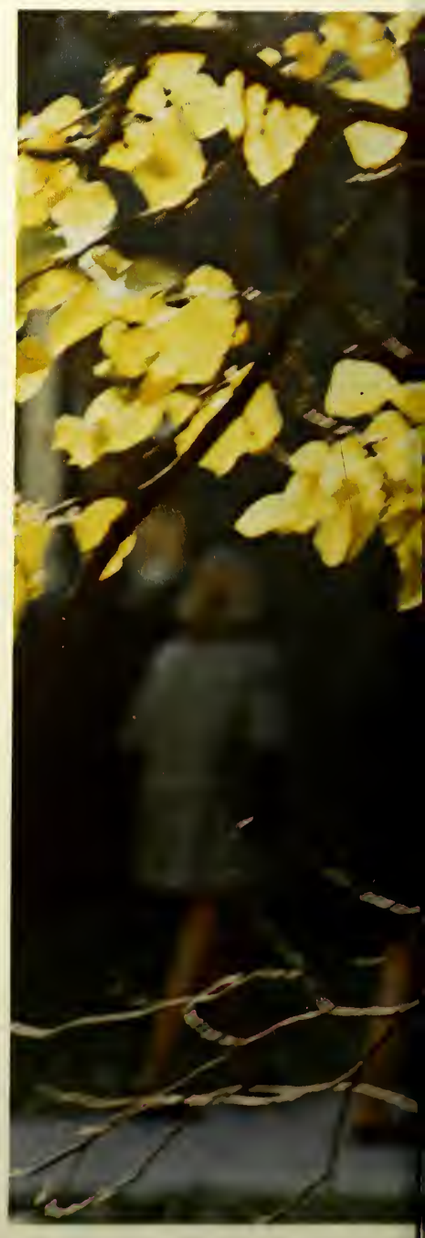
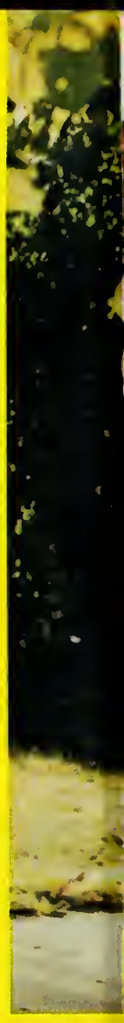
Every fall a timeless beauty touches Millikin University. The oaks and maples begin to unfold their matchless colors against the red stone architecture, creating a quiet artistry.





The familiar sound of Westminster's chimes fill the air and add the finishing touches to a campus whose attitudes, organizations and students have gone virtually untouched throughout the dramatic political, social, and economic upheavals of our time.

To this atmosphere some 1300 students arrive each September. Friendships are renewed over Bachman, Turner, Overdrive and Busch at Keggers, woodsies and hairy buffalos. Familiar sayings of "Let's cook" and "He's smooth-doggin' it" can be heard as students celebrate their return or first arrival to an institution not unlike the universities of the 1950's.

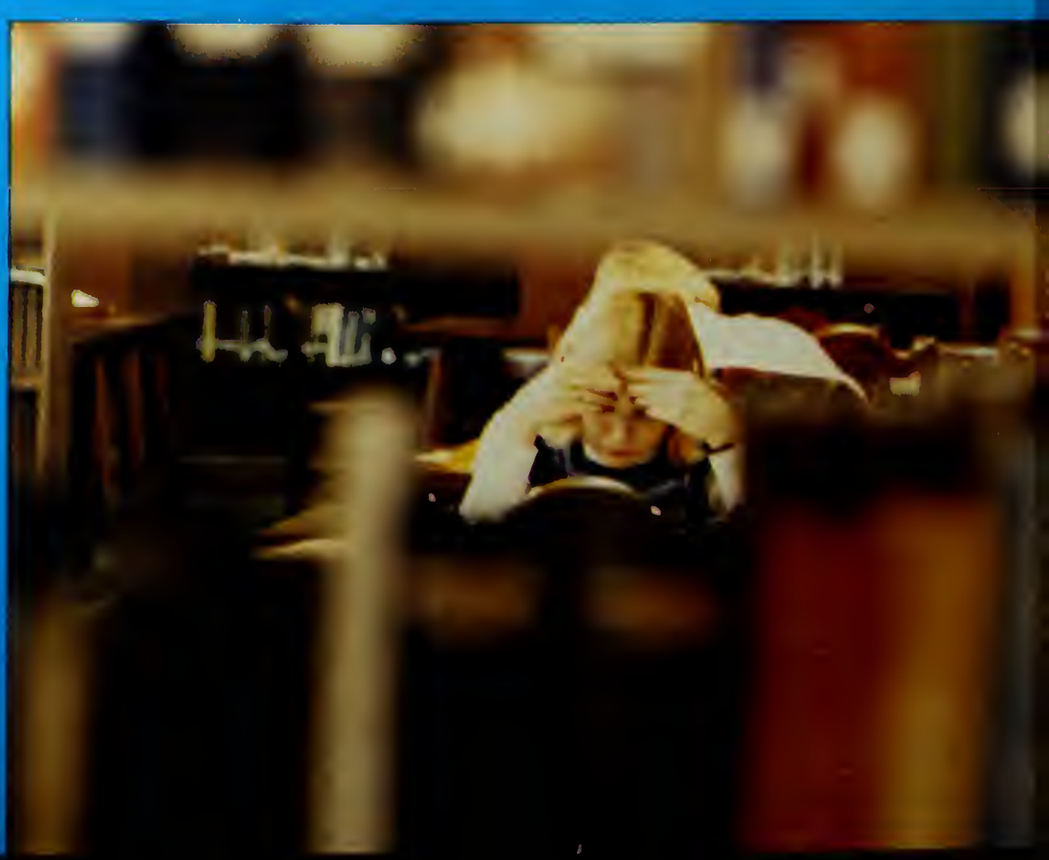
As the recession gets worse and the world's faith in the American political system lessens, Millikin's students delve into their own world of Chaucer, Freshmen Zoo, Buzz Fin, and Calculus, with diversions ranging from a Peter Nero concert to breaking the world's record in leapfrogging.



Many have said the University exists in a world of its own, reminiscent of a musical by Metro-Goldwyn-Mayer starring Peter Lawford and June Allyson. Good or Bad? No one is certain. Each must search his own mind.

The University's statue of Abe Lincoln
bears a quote . . . "At twenty-one I came to Illinois."

Coaching plus desire

proved to be a winning formula for the 1974 "Big Blue" football team. Though hampered by countless injuries and an inexperienced offensive line, Headcoach "Skip" Mathieson and his coaching assistants pieced together one of the finest football teams Millikin fans have seen in years. Injuries, numerous as in the past, and many openings left by graduated seniors last year, forced the team to rely on underclassmen material. However, the intense desire of all team members to work and work hard gave the team the competitive edge, and led the "Blue" to an overall season record of 9-1, and a share in the College Conference of Illinois and Wisconsin Championship berth.

1974-1975 was the year that might have been for Big Blue Swimming. The team was beset by illness and injury during most of January and had difficulty regaining the fine form it showed in the early season.

Despite these setbacks the team went on to a second place finish both in the CCIW and the Illinois Private College Meet along with a third straight NAIA District title. The team did break 13 of 17 varsity records. Greg Peterson, Doug Slater, Jerry Westwater and Don McNeely were all CCIW champions.

In the national scene the team placed 16th in the NAIA National Meet. The 800 free relay team of John Lienhop, Mark Steenrod, Jim Zirngibl, and Doug Slater earned All American honors with a sixth finish. Marcia Morey continued her record breaking with a New American Standard in the 200 breaststroke at the National AAU meet in Cincinnati.

A rebuilding season

for The Blue is all that can be said of the 1974-75 M.U. basketball team. The Blue Cagers finished the season with a .500 mark, way below pre-season expectations. The problem with this year's team wasn't due to a lack of talented personnel. The Big Blue had one of their more gifted teams in years, with the likes of Gobczynski, Mosser, Baxter and Littrell. The trouble seemed to be the inability of The Blue to get it all together and play as one ball club.

Conference Co-Champs

for the 1974-75 season was the result of a surge of strength in both hitting and pitching by The Big Blue Baseball Team late in the year. Starting the season off on the wrong foot, the team ended its annual southern trip with an overall record of 1-9. The poor performance was due to a lack of hitting and a multitude of errors. Once back at M.U., the Blue made an unbelievable turn around, going 14-2 in CCIW Conference play. The only two losses were at the hands of Illinois Wesleyan and strong Elmhurst. The change in The Blue was too late however to gain sole possession of the winners berth, as honors were shared with Elmhurst.

Mayhall shows the concentration which helped him go undefeated in CCIW play.

Two individual champions, along with a fifth place team ranking in the CCIW wrestling tournament, rounded out the season for the Big Blue grapplers. Led by Coach Carl Poelker, who is in his second year as head coach, The Blue matmen proved formidable foes for any conference team, boasting a dual meet record of 8-3 and two NAIA National qualifiers in the likes of Jeff Newberg and Bruce Metchell.

The team accumulated a 4-2 record for dual meets and placed seventh in the CCIW. Being a young team, beginning the season with five freshmen, two sophomores, two juniors, and one senior, the runners feel that this season proved to be a successful one, and just one of many to come.

The Blue trackmen

under the expert coaching of Guy Neibuhr had a fine season in 1975, taking a team second in District 20 competition and ranking high in the CCIW. The squad attributes their success to the individual record-breaking efforts of several members. Sophomore Ken Russell broke the CCIW high jump record with an unbelievable 6'9" leap, while his teammates, Steve Schepper, James Harris, and Mike Estes went on to smash several other Millikin track records.

Led by Coach Mike Brannon and senior standouts in the likes of Bill Wells, Dave Bosak, and Steve Moline. The Blue Racquetmen totaled up 14 points in the CCIW tourney, second only to Augie's 20 points.

Cheerleaders

are an integral part of any university athletic program. The Big Blue cheerleaders proved this statement to be fact in the 1974-75 sports season at Millikin. This past year they followed the Big Blue Teams from the confines of Griswold Center to as far away as the Boot Hill Bowl, keeping alive the spirit of competition in Millikin athletes as well as fans.

Women Cagers

had a good year considering the excessive number of fouls and injuries which plagued the team all season. In CCIW Tournament play the Netwomen were ahead of Augie by four points during the second half, but ended up suffering a terrible defeat when a few starters experienced some foul trouble. Although the women did have their share of disheartening losses in their quest for the CCIW crown, the teamwork was there and it could prove to be a foundation for the future.

Injuries, a sports hazard at M.U., have seriously stiffled the Blue Bench.

1975

The Viola Farber Dance Company . . . different, creative, intriguing

VIOLA: I think some are puzzled and some are delighted . . . in some cases it irritates them."
STUDENT: I liked them at first because they were really different, but after a while it got pretty old."

VIOLA: Actually I am not trying to give a particular message."
STUDENT: It was alright for exercise, but for performance to sit and watch . . . no!"

VIOLA: It has to do with people. It has to do with situations, but there is not a story development."
STUDENT: I was kind of intrigued by it."

VIOLA: In my work almost all dancers have to make choices of several things they are going to do and that takes a kind of maturity."
STUDENT: I thought she was enthusiastic, she had talent . . . she was very creative."

"Ferrante and Teicher . . . they are two of the most colorful entertainers that Millikin has ever had . . . the audience enjoyed their music because it was familiar to them."

"I really loved their sense of humor!"

"They are both fantastic piano players . . . it was the kind of concert you didn't want to miss."

Maynard Ferguson . . . "Most exciting trumpet sound

▪ ▪ ▪ great innovations in jazz."

"I didn't think his stage presence was very professional."

"He was his usual fantastic self and his back-up band was great."

"The band members playing in the audience really got everyone involved . . . I thought he was very, very good."

"There was more response to him than to anyone else I've ever seen at Millikin. It was the best thing that Convocations has ever had."

"He didn't do an encore even after a standing ovation!"

Trouble in River City . . .

"Music Man's finest hour was when the horses made their appearance and stole the show."

"I enjoyed the costumes and sets very much."

"The barbershop quartet not only sang well but also enjoyed performing . . . the audience enjoyed them."

". . . the show had potential."

"The National Chinese Opera Theatre" . . . "A spectacular performance . . .

the costumes were probably the most spectacular asset to the performance."

"I thought the show was absolutely flawless . . . I've never seen such a flawless performance."

"The headdresses were especially beautiful . . . the symbolism in all of the costumes was very intriguing."

"The effect of Gamma Rays on Man-In-The-Moon Marigolds . . . .

I think the play really affected the audience . . . it left you with a queer kind of feeling."

"It was the type of play that could have been boring, but it wasn't."

". . . very well performed . . . the settings fit the mood of the play, but the sound effects did the most to create the atmosphere."

"Michael Lorimer

. . . was really different; I enjoyed him. It wasn't the same type of music all the way through. He communicates well through his music."

"It got kind of boring toward the end. Maybe if he had been with something else, it would have been better. You have to be an awfully strong performer to be able to carry an entire program alone."

"The Minnesota Orchestra . . . is one of the finest orchestras in the entire country, and they gave an excellent, exciting performance. Their choice of music was great. On the whole, I was very impressed."

"Usually I wouldn't go to hear an orchestra, but they were so good that I really enjoyed their concert."

"The Norman Luboff Choir . . . gave a really enjoyable concert. They had a good variety of music—too much of one thing would have been boring."

"I liked their spirituals and popular songs a lot—better than their sacred music. I thought they had a blending problem."

"The choir had a very refined sound. You could tell there was an awfully lot of talent there."

"As You Like It . . . was great. It was one of Shakespeare's more unusual comedies. I don't usually like Shakespeare, but this was enjoyable and had enough levity that it kept the audience's interest. It was hard to get into it at the beginning, but after the plot was established it kept my interest."

"It was a relief looking at different 'theater twinks' for a while!"

"Street Scene . . . was, for me, a very enjoyable musical. It didn't at all give the impression that it was opera—usually you think of opera as being really heavy stuff. It was easy to understand—it didn't go over my head. Some of the characters were hilarious!"

"**Street Scene** was much more real-seeming than the usual opera. There was real technical art and universal appeal at the same time."

"Marat/Sade

. . . was good but hard to understand. The acting was fair overall—nothing spectacular. There were some really good parts in it, though."

"It didn't get the message across; even our teacher couldn't tell us what it meant. It was just too crazy to be a good play—I didn't like it."

"I liked it but a lot of people disagreed with me. It was bizarre and it was completely different from anything Millikin has ever seen. It was blunt—gross, crass, rude, crude! A lot of townspeople walked out on it. It was very well acted."

"Arms and the Man . . . was a good play but they were talking too fast. Nobody was laughing because they were talking so fast. Saturday night was much better than Friday night."

"I liked it the first night but I heard after that it wasn't too good. It made wars look as ridiculous as they really are."

1975 STUDENT

Moving in was Millikin's first big event this September. Freshmen were making their first appearance on the big campus, and returning students were all enthusiastic about another year at M.U. There was action all around as the frat boys offered their help to all the freshman girls and "scoped" out possibilities. Of course the dumb-waiter in the dorm was out of order, so countless trips up and down stairs were made. The whole event was rather exhausting, and there were great sighs of relief as the last items were finally settled in the rooms.

Two freshmen enter Blackburn Hall, wondering what is in store for them.

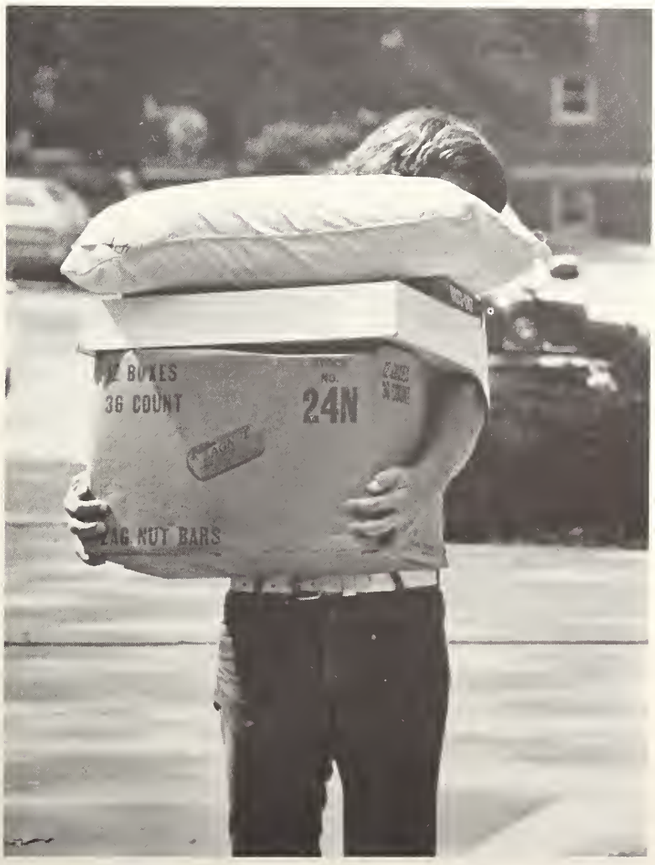
Jim Marshall finds that carrying shoeboxes is a great way to meet girls.

The whole family is put to work.

Susan Smith and her family make the big move into the dorm.

It sure is nice to have Mom there to help.

She can't believe she brought all those clothes.



Mark Mueller, where is your head?

Great weather

welcomed the incoming freshmen this year at Freshman Camp which was held at the old stand by, Allerton Park. This year's co-chairmen, Jeff Dowd and Cathy Gasper, did their best to see that Freshman Camp was a success. With Mrs. Hill's guidance and direction, they planned a weekend of activities to acquaint the new students with each other, with their faculty, and with Millikin's general atmosphere. Various activities throughout the weekend included: faculty discussion groups, volleyball, softball, a dance featuring "Black and White", a midnight movie, walks through Allerton, the men's cabins rampage, relay games between cabins, water fights, and the most fun of all — meeting people.

"Family weekend"

was the theme of Fall Parent's Day 1974 as high school brothers and sisters of Millikin students joined in the weekend festivities along with their parents. Responsible for planning the weekend's agenda was Chairman Jane Reif. Parents were able to meet and visit with faculty and staff members during a reception held at the Holiday Inn. Various other activities included registration, a workshop for volunteer admissions counselors, a parents council meeting, and open visitation at the dorms and Greek houses. The highlight of the events was the Big Blue football game with North Park. A reception was held for Miss Marcia Morey, an outstanding Millikin swimmer, after the football game. All in all, it was a delightful weekend for everyone.

Hats off to this year's fantastic Homecoming Jazz Lab Band concert featuring singer Gwen Conley. Everyone attending enjoyed the wide variety of music supplied by Millikin's well-known Jazz Lab Band, and the audience was left speechless after the superb performance of Ms. Conley. Dr. Henderson, Dean of the School of Music, accompanied the band on a few selections. During intermission of the concert, the 1974 Homecoming Queen, Miss Debbie Curfman, was crowned.

Technique was the key word in the entertainment provided by David Steinberg at Homecoming. Steinberg incorporated the trial use of a line, and either discontinued it or changed topics, depending on the audience's response. He felt that his feelings were conveyed best by his use of unmentionable words. All in all, Steinberg provided Millikin with a very entertaining show.

What talent possessed by students here at old M.U.! Several acts were entered in this year's Homecoming Talent Show, and all proved to be entertaining in their own way. Fairy tales highlighted this year's house decs as they were skillfully centered around the main theme, "A Fairy Tale View of Old M.U." First place in the women's division was taken by Alpha Chi Omega, and Tau Kappa Epsilon received the first place trophy for the men's division. All housing units who participated showed great effort in constructing original decs. House Dec co-chairmen were Mary Jo Welch and Bill Hyinck. The 1974 Homecoming Games were cancelled twice due to the unexpected lousy weather.

The Alpha Chi Omega house dec wins the women's division with the theme, "MU-Fracture Wheaton's Fairy-Tails!"

Aston Hall's house dec extends from the Aston three window.

"Who's Afraid Of Big Bad Wheaton?" is the theme of the Zeta Tau Alpha House Dec.

Tau Kappa Epsilon wins the men's division of house dec competition.

"Bake Them" is the theme of the Pi Beta Phi house dec

Mills Hall house dec theme is "Rip Wheaton."

Radiance beamed from the stage as Debbie Curfman was crowned 1974 Homecoming Queen at Millikin. A member of Delta Delta Delta sorority and a communications-theatre major, Debbie served as president of the Panhellenic Council and editor of the Decaturian her senior year. Her theatre activities included roles in the Showcase productions of "The Little Foxes," "Abelard and Heloise," and "The Effect of Gamma Rays on Man-In-The Moon Marigolds."

Jane Brueggeman represented Alpha Chi Omega, being a senior elementary education major, state vice-president of the SIEA, first vice-president of her sorority and a member of Pi Mu Theta.

Zeta Tau Alpha was represented by senior Angela Epperson, majoring in vocal music. Angela also served as president of U.C. Board and vice-president of her sorority her senior year.

Debbie McDonald was Blackburn Hall's candidate. A junior sociology-psychology major, Debbie served on the Hospitality Corps, was a member of For Soul Only and an Alpha Phi Alpha Angel.

Pi Beta Phi's representative was Diane Hill, an economics-finance major and editor of last year's Millidek. She also served as a 1974 Homecoming co-chairman, and was a member of Admissions Committee and Hospitality Corps.

Jennifer Friday, a sophomore biology major, represented Walker Hall. Besides being a member of For Soul Only and Student Senate, Jennifer was also organizations editor for this year's Millidek.

Mauria Fitzgerald was chosen as Aston Hall's candidate. A sophomore theatre major, Mauria has had roles in several MU plays, was costume mistress for "Music Man," and was performance editor for the 1975 Millidek.

Let It Snow! Let it snow! Let it snow! Millikin was blessed with a White Christmas this year which gave everyone the holiday spirit. Glistening snow blanketed the campus and buildings. Door decs, snowball fights, skating, and traying became favorite activities of MU students. The annual Millikin Dames Cookie Party was naturally a big success, sponsored by faculty wives, and attended by both students and faculty.

Winter Term again proved January to be a month of relaxation and enjoyment, along with participation in the special classes which many students chose to undertake. Several new projects were introduced, including ballroom dancing, rosemaling, sports and society, taxidermy, and various others. Basketball games, wrestling, and IM's also provided activities to keep students occupied during winter term, not to mention activities they organized themselves.

"Soul" was the key word describing the spirit and togetherness expressed by all who participated in Black Emphasis Week, which was held March 16-22, 1975. Starting the week off was Open House on Sunday, followed by Poetry night on Monday. Recreation night was held in Griswold Gym on Tuesday. A play written and directed by Joe Wright, a member of For Soul Only, was put on at the culture house on Wednesday and Thursday. Friday evening consisted of Gospel music at Westminster Church. On Saturday, the push choir from Chicago performed, and the annual dance was held at the Carriage Inn in Decatur. All in all, it was a great week of music, recreation, and fellowship.

Hidden Talent was revealed by all participating in the 1975 Campus Chest Talent Show held at Kirkland Auditorium. Taking place on Tuesday, March 11, Talent Show started the week off which continued through Friday, March 14. An entertaining variety of acts proved that Millikin students know and do more than the average college student. First place in the event went to Pi Beta Phi, performing a Bette Midler medley, with second place going to guitarists Dan Holmes and Mark Ross. Other acts included a band and drill team, the roaring 20's, a takeoff on the Ten Little Indians, group singing, a piano solo, and a short review of Cabaret. Bill (Boomer) Martin served as master of ceremonies.

"Go to Jail" ordered the Kappa Sig's, who had their annual jailhouse at the 1975 Campus Chest Carnival held on Wednesday night. Other booths included pie-throwing, tricycle races, tossing coins, fortune-telling, and egg-glop smashing. A new weekly event added this year on Thursday night was the Food Fair in the Sub. Each housing unit sold their homemade goodies. The Fund Drive was held to raise even more money for Multiple Sclerosis. At the dance on the final night of Campus Chest week, Peg Smith and Tom West were announced Beauty and Beast. Overall winners of the week were: Zeta Tau Alpha — first, Alpha Chi Omega — second, and Pi Beta Phi — third. Campus Chest was very successful as more money was raised this year than ever before. The Campus Chest Co-chairmen, Peg Smith and Kathy McCluggage, did an excellent job of planning and organizing.

Dorm Life isn't as dull as a lot of people think. One of the special activities planned especially for dormitory people is Residence Hall Week, which this year was held April 8-12. Tuesday night kicked off the eventful week with a Pizza Party at Shakey's. Wednesday afternoon a picnic and games were planned, but due to bad weather, the picnic was held in the Sub. Thursday afternoon a meeting was conducted, the topic of which was "Black and White Relations", and a movie, "Eye of the Storm", was shown. Friday evening the movie "For Pete's Sake" was shown, and afterwards everyone gathered at the Coffeehouse to be entertained. Later, there was a dance in the cafeteria to finish out the week.

Off-Campus Housing

Housing provides a retreat for many of the students attending Millikin University. The majority of this group are students who live at home and commute from Decatur and nearby communities. Apartments and other means of off-campus housing are occupied by young married couples who attend Millikin and, at the same time, manage to keep up a home of their own. Several "townies" also have jobs in the area, which they hold besides going to school.

Debbie and Dave Galassi live in a cozy apartment in Decatur.

Women's Rush

Above Left: M. McDougal and P. Smith exhibit a little rock 'n roll for rushees at the Pi Beta Phi 50's party. **Above Right:** Through skits the women of Zeta Tau Alpha, H. McClintock, A. Epperson, M. Moore and L. Sunkel try to express what chapter life is about. **Left:** P. Reeder and rushee L. Patrick enjoy a rush skit at the Alpha Chi Omega house. **Below:** Delta Delta Delta chapter members, C. Gasper, C. Etling, N. Owen, A. Cover, L. Anderson, D. Benjamin and C. "Don't ask me, I don't want to see your scrapbook" . . . "No thanks, one more glass of punch and I'll be waterlogged" . . . "C'mon, you remember her. She's the quarterback's sister" . . . "OK, smile! I'm going to open the door!"

Rush was trying, tiring, confusing, disappointing and exciting. But most of all it gave the girls on both sides a chance to meet some new people, hear new stories, compare hometown honeies, tell how parents helped pack, remember saying bye to your little brother, or talk about the old faithful topic, "the men of M.U."

Rush shaped the pledge classes for the year and for future chapters. Behind the skits, punch, decorations, nametags and smiles was a lot of work, with week-long meetings before rush started. Rush was fun, but even more, rush was important for the Greeks.

Non - stop party

shaking hands, meeting people, remembering names, bands, beer and food were the first signs of fraternity life that the Millikin male rushee saw. I.F.C. members decided on a more open rush for 1974-75 where the rushees could feel free to move from house to house. The various fraternity houses had bands and refreshments. Members were pledged continually throughout rush week and into the semester. I.F.C. also sponsored football, basketball and bowling competition during the year. The annual blood drive was also held.

Progress toward better inter-fraternity relations was made by the 1974-75 Panhellenic Council. In order to foster the progress a progressive dinner was sponsored by the council, where the women of the four NPC organizations on Millikin's campus rotated in groups from house to house enjoying the selected courses and discussions on various panhellenic problems. During the winter months the council hosted area schools to a Greek Conference. At that time discussion groups were also set up as well as a dance.

Pardon me boys

are those the Alpha Chi's?

After a successful rush the women of Alpha Chi Omega had their annual Street Dance. Winning the '74 Homecoming house decoration trophy for the third year, inspired their pledges to take a walk out to Purdue University. The underprivileged children of Decatur had an enjoyable Christmas thanks to the Alpha Chi's, as a Christmas party was held for the children by the girls. First semester ended with the scholarship trophy being retired by the women of Alpha Chi Omega, as this marked their third semester on top. Second semester found the women placing second in Campus Chest and first in Greek Week. In recognition of their fine accomplishments during the 1974-75 academic year the chapter received an award for the most outstanding chapter in their province.

Back at the triple D ranch the pledges of Tri Delta, with a little help from their actives, attempted to break the world record in leap-frogging and thereby raised money for blood cancer research. Stepping back in time, the women of Delta Delta Delta held their annual pledge dance, "The Delta Time Machine." To increase their scholarship fund for a Millikin co-ed, the girls sponsored a midnight pancake breakfast. Christmas time brought their annual Pine Tea, held for the University's faculty and administration. Second semester began with an open house and a winter formal. The year drew to a close with the traditional Pansy Breakfast held by the women of 111 Park Place in honor of Millikin's graduating senior women.

Home of the hairy buffalo during the 1974-75 academic year was at 164 Park Place, where the men of Kappa Sigma made the exotic drink famous. Early in the year a pledge dance was held following the theme "Decatur Grit." The Kappa Sig's hosted the campus to two open houses followed by their founder's day at the Scanda House and a sweetheart dance on Valentine's Day. The year drew to a close with a visit to all the sorority houses by the "Fantastic flying tuna brothers" and their artistic skills.

Members from everywhere of Alpha Tau Omega appeared on Millikin's campus as the Millikin chapter of ATO became initiated and installed. Dante's was the site for a formal dinner and dance in honor of the chapter members. National ATO officers and administrators from the University gave speeches and recognized those responsible for the new chapter at M.U. Saturday night the chapter held a celebration for the entire campus at the chapter house. Sunday wound up the weekend as the chapter attended church.

Advisor for Social Activities, Mrs. Elizabeth Hill, congratulates the ATO's.

President of the ATO little sisters, T. Brannan, presents the chapter with an installation cake.

President of the pledge class, J. Pitrisso, speaks to those attending the installation dinner.

Greek Week

Rain, sleet or snow couldn't stop the Greek games or dampen the spirits of Greek Week. This year's Week started off with a cancer drive won by the women of Alpha Chi Omega and the men of Alpha Tau Omega. Thursday night Greek sing took place in the cafeteria, where the Alpha Chi's and ATO's again picked up the first place trophies. Also at Greek sing Tri Delta candidate Jackie Condon and ATO candidate Tim Kennedy were named this year's Greek Goddess and God. Games were held at Macon County Fairgrounds on Saturday at which time the men of Delta Sigma Phi and the women of Alpha Chi Omega proved the winners. Greek feed immediately followed, where the over-all winners of the week's activities were announced. Again the Alpha Chi's placed on top in the women's division with the men of ATO taking over the first place spot in the men's division. A dance and kegger at the Kappa Sigma house concluded the wild week.

Alumni Board of Directors

as in years past has served Millikin University by helping to promote the fund raising campaigns and alumni activities. The board, consisting of members from various graduating classes and four undergraduates, discussed at monthly meetings ways in which the alumni could better serve the University.

Dean Houston heads a committee meeting.

The Student Affairs Committee was responsible this year, as in years past for the intellectual, cultural and religious welfare of the University's students. Headed by Dean Houston, Dean of Student Affairs, the committee members represented the faculty, administration and the student body.

Seated, left to right: Mary Strine, Dr. Stacy Meyers, Dean Houston, D. J. Brown, Kerry McGregor, Mark Pettyjohn. **First Row, standing:** Kathy Young, Dean Henderson, Carl Pattison, Kenneth Brown. **Second Row:** Dean Petty, Dave Badger, Nick Peters, Dean Decker.

One of the many

faculty committees, Executive Board has always been concerned with understanding and meeting the needs of the student body. Throughout the years the committee has accomplished this by striving to maintain high academic standards for the University via the reviewing of graduation requirements and petitions involving courses of study.

Judicial board existed to hear charges against students and to make recommendations to the Dean of Students in matters concerning the enforcement of University regulations applicable to the students. In matters of alleged violations of University regulations that occurred off campus, J-Board met with the Dean of Students to consider whether the University was involved and what to do about it.

Pub board, in order to head off overspending, established a new business policy for the 1974-75 academic year. At monthly meetings business managers presented their respective publications' budget for approval. Students, faculty, and administrators were kept informed of spending through the University's newspaper.

Headed by Dr. Stacy Myers, the board therefore ran a tight check on finances as well as fulfilling their responsibilities in the selection of publication heads and business managers.

Student operated, W.J.M.U. radio delivered Decatur and Millikin University with an education in rock, soul, jazz, and blues. To attain a professional sound took the hard work of many people, not only the station manager, but the D.J.'s, engineers, and program directors as well. In order to further use this sound as an educational tool the station worked to go stereo, a goal which will be attained in 1975-76.

An integral part of M.U. life has been the theatre. 1974-75 was highlighted by five major productions: **Music Man, The Homecoming, The Effect of Gamma Rays on Man-in-the-Moon Marigolds, Marat/Sade,** and **Arms and The Man.** In addition a production of selected songs from **Jacque Brel Is Alive and Living in Paris** was presented before various Alumni Groups and The Millikin Associates. Two productions were done by Millikin students in a Church Drama Internship made possible by a grant from the Presbyterian Church. In addition The Second Annual High School Festival saw six schools present productions on Kirkland Stage.

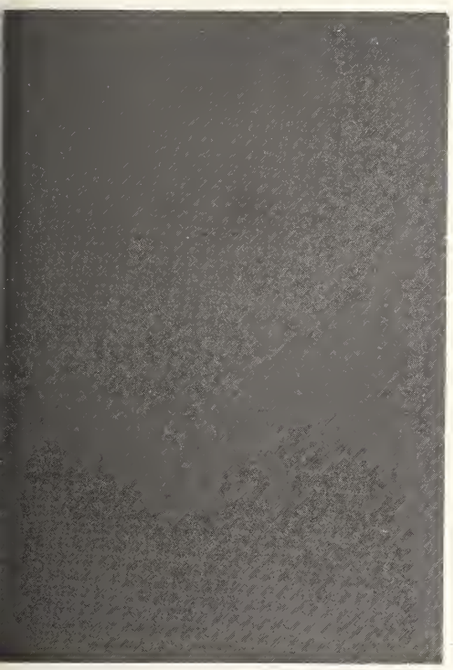
The Millikin University Sailing Club hosted a regatta on Lake Decatur in October, hosting 4 schools. The M.U.S.C. has been able to buy new boats as the treasury permits and has undertaken a project to build a fleet of Lasers. Membership has been open to any Millikin student, who has had sailing experience.



The Environmental Affairs Council invited faculty and students to join its organization. Its theme was "If you care about Environment, here's what you can do at Millikin." Mount Zion and Warrensburg High Schools participated in the first Water Quality Workshop conducted by the club. The most important data collected during the workshop was the students realization that precision and accuracy are dependent on the methods used to analyze the samples. Dr. Groz, director of the project, felt that the students should develop two important qualities. First, the ability to improve their accuracy, and second, to become more critical of their data and other data collected. The first portion of the workshop was spent collecting samples and making observations at various sites. The stream flow, depth, turbidity, and temperature were all recorded.

"The powers of the presidency should be significantly curtailed." With this issue in mind the Millikin Debate team traveled through Illinois, Indiana, and Wisconsin fighting either pro or con. This was the first time in many years that students had participated in intercollegiate debate and forensic activities. The debate and forensic team attended fine tournaments during the 1974-75 school year at Ball State University (3rd place), University of Wisconsin, Bradley University (3rd, 5th, and 9th place), Greenville College (4th), and Murray State University (1st). Lisa Griebel qualified for the national tournament in the Murray State tourney, the first Millikin student ever to qualify for the Nationals.

Results not excuses was one motto which encouraged the Millikin Choir to rise to each occasion it met. After exhausting auditions during the first weeks of school, the choir settled into a stringent five hour rehearsal schedule. Christmas brought about the Choir's annual Vespers service in Kirkland. A ten day tour through Indiana, Ohio and Illinois was successful in spite of a flu epidemic. Home concerts at Westminster Church ended the season as the schedules of each member tightened with opera and play rehearsals.

"Beauty in search of a word," is a phrase that has often been used to describe music. In listening to a symphony performance at Kirkland, one indeed is aware of the truth in that statement. With the increased interest in music the past few years has seen the Millikin University orchestra improve in size and performance. Members of the orchestra are drawn not just from the University, but from Decatur and surrounding areas as well.

Saturday afternoons in the Fall

would not be the same without the sound of the "Big Blue Marching Band" talent. Practicing long hours in Fairview Park, the band's work did not go unnoticed as they were enjoyed by football fans at halftime. Their entertainment however did not stop there, for if a call on the field was bad a little "Mickey Mouse" would be heard and if a touchdown was made the fight song would immediately follow.

Old English costumes and ballads have set the mood for Millikin University's Christmas season over the years. Festivities including carolling and the breaking of the pinata highlighted activities sponsored by the Spanish club. Sponsor of the club, Dr. Castaneda, organized and developed a program to teach community children Spanish. The result has been an increased awareness in the Spanish culture and language within the Decatur community.

A national pre-medical and pre-dental fraternity which was established in 1926 for the purpose of enlightening undergraduate students as to the nature of medicine and dentistry, Alpha Epsilon Delta provides information concerning application to professional schools as well as recognizing those students who have demonstrated superior scholastic achievement. To be eligible for membership in A.E.D., a student must maintain an accumulative grade point average of at least 3.0 and must have declared a major in the health sciences. Also, the student must be of sophomore standing and have attended Millikin University for one semester. The Illinois Gamma chapter at Millikin, in addition to its monthly meetings held at the home of Dr. Lester C. Shell, Chairman of the Biology Department, sponsors an annual Allied Health Career Night, to provide all interested students with information given directly by a professional in a given field. A.E.D. also sponsors the annual A.E.D. Banquet for all students and honorary faculty members.

To emphasize the importance of scholarship and character in higher education, to foster other significant purposes for which colleges have been founded and to stimulate mental achievement among all students on the campus by recognizing such achievement through electing high-ranking students to membership, has been the purpose of Millikin University's chapter of Phi Kappa Phi.

To be eligible for membership, a student must be enrolled as a second semester junior or senior. He must have completed forty academic hours at Millikin. A junior must rank in the upper 5% of his class and a senior exceed 10% of the number in the graduating class.

Provision is made for inviting faculty and administrative staff to join.

The standing of a second semester Junior and holding a cumulative grade point average of at least 3.25, makes eligible for membership in Pi Mu Theta any woman attending Millikin University. Qualities of service and leadership are also considered.

The organization's purpose is to promote these qualities of service, scholarship, and leadership on campus.

Each year, Pi Mu Theta presents at least one scholarship to a deserving undergraduate woman. As a means of maintaining this scholarship fund, Pi Mu Theta sponsors bake sales and other money making projects.

Students whose major is in one of natural sciences or mathematics maintain as their national college honorary society, Sigma Zeta. Membership requires the student to have completed twelve hours in their major and hold a grade point average of 3.00 in the sciences and math, with a 2.75 average overall.

The purpose of the society is two-fold:

1. To recognize the attainment of high scholarship.
2. To encourage and foster the attainment of further knowledge in the sciences.

Activities during 1974-75 have included the following: talks on science related jobs, slide show featuring conservation projects in Wisconsin, induction of new full-time members, review of graduate work on insulin biosynthesis by advisor Dr. Neil Baird, a presentation on Florida Key and Everglade ecology, a review on procedures for applying to various graduate and professional schools, a program entitled "Life in Concert" given by John Carlock of Illinois State University, and the year was concluded with a Spring picnic where the national convention was reviewed.

1975 marks the fiftieth year for Sigma Zeta. Millikin University established Pi chapter in 1943.

An honor that is received by Millikin students is to be named to "Who's Who Among Students in American Colleges and Universities." Students were chosen for their scholarship, participation and leadership in extra-curricular activities, their citizenship, service to the school and promise of future success.

1975 FACULTY A&M

Dr. J. Roger Miller
President

A remarkable man has headed Millikin University for several years. A graduate of Illinois Wesleyan University, Dr. Miller has had an excellent grasp of the advantages and problems small universities have had to face. He has been instrumental in Millikin's abilities to "operate in the black" in this age of inflation and rising costs.

In hosting freshmen teas, open houses and senior dinners, the President has made a concentrated effort to relate to students and their problems. These activities have resulted in students feeling more a part and closer to the working force of Dr. Miller's position. J. Roger, as students have affectionately called him, has had a close and effective rapport with the student body.

A man of considerable energies, Dr. Miller was unfortunate to have sustained injuries to his leg just prior to the beginning of the 1974-75 academic year.

Gerald A. Redford
Assistant to the President

Orval C. Hayes
Security Captain

This year marked the initial year for the James Millikin Scholars Program. Twenty-five freshmen were selected from a wide range of high schools to make up the first group of James Millikin Scholars. These are highly talented students who enroll for special courses during their freshman year and have considerable freedom in pursuing their careers at Millikin.

Greater coordination of inter-departmental programs is being developed under the direction of Dr. Bert C. Bach, who was appointed for one year to serve as assistant to Dr. Givens. A renewed interest in interdisciplinary courses and programs has been expressed by each of the new deans at Millikin—Dean Henderson in Music and Dean Decker in Business and Industrial Management. Efforts are being made to permit a student to major in a combination of areas such as business and music, music and theatre, humanities, fine arts, and others. The interdisciplinary major increases the flexibility of Millikin's curriculum. Interdepartmental programs that are currently available are: American Studies, Continental European Studies, Environmental Studies, Urban Studies and Business Administration.

Dr. Paul R. Givens, Vice President of Academic Affairs.

Kenneth Brown, Vice President of Business Affairs.

Dr. Bert C. Bach, Assistant to the Vice President of Academic Affairs.

C. Kent Richardson, Director of University Services.

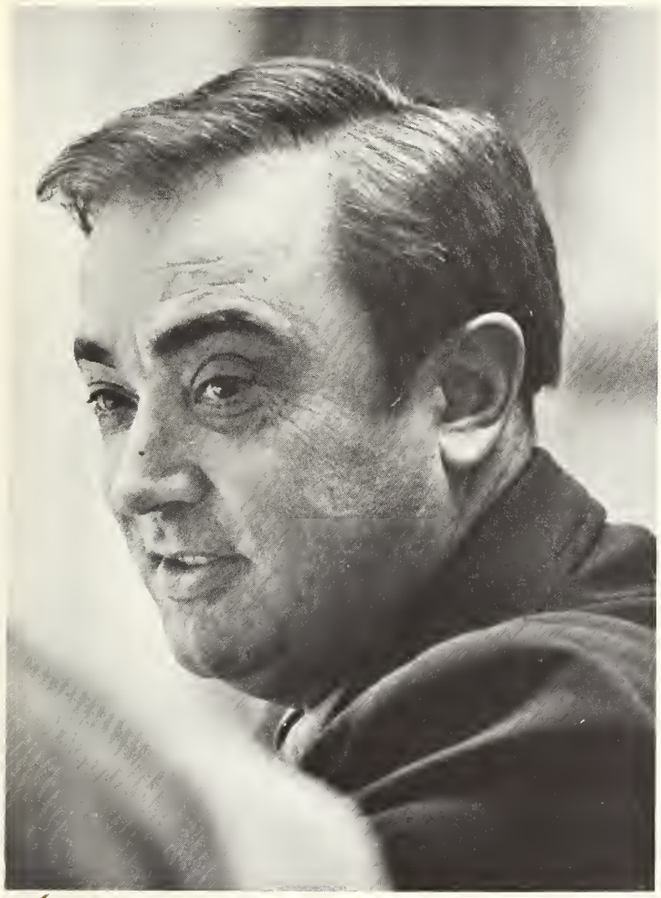
Wayne W. Krows, Vice President of Development.

J. Thomas McNamara, Director of Public Information.

Robert E. Hehmeyer, Jr., Director of Development.

Mary Tupper, Supervisor of Publications.

W. Frank Elston, Director of Alumni Relations.

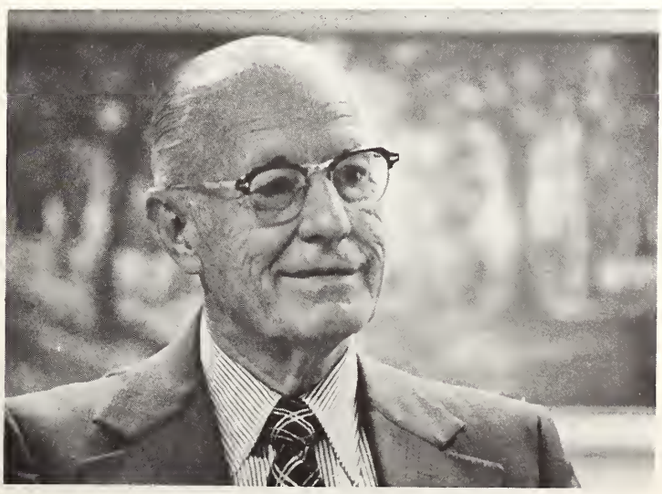


Dr. David G. Glasscock, Vice President of Institutional Research.

Gary J. McCray, Director of the Data Center.

Mary Ellen Welcher, Programmer.

Margaret M. Callaghan, Programmer.



Dr. Byron L. Kerns, Part-time testing.

Joseph H. Houston, Dean of Students

Elizabeth F. Hill, Director of Student Activities.

Layne C. Triplett, Director of Career Development and Placement.

E. James Petty, Assistant Dean of Students.

Carl T. Pattison, Director of Religious Affairs

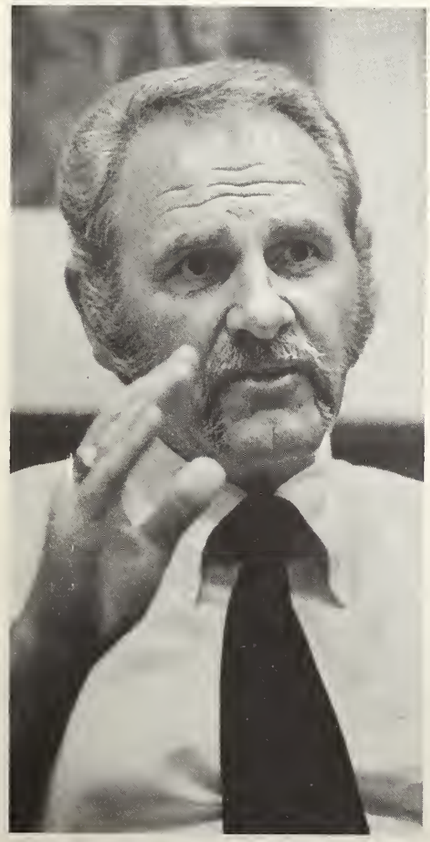
What is the Office of Student Affairs? Well, it is a lot of things. It is a place to go when you have a question and do not know where to find the answer. Student Affairs will help you. If you have lost your I.D. (or anything for that matter), go to Student Affairs. How about those days when you are really feeling low and you have no one to talk to—go to Student Affairs. Someone will always be willing to talk to you. As Dean Houston says, "you are not alone . . . . . we are here to help. It is our hope that you find Millikin University community not only friendly but meaningful and challenging."

Jack C. Allen, Dean of Admissions and Records.

Bryce D. Boston, Assistant Director of Admissions.

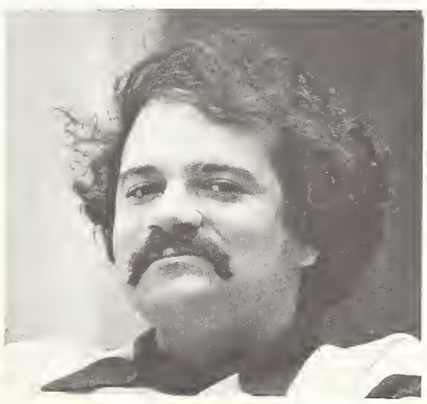
Gregory Miller, Admissions Counselor.

Katherine Smetts, Admissions Counselor.



James F. Kettlekamp, Director of Admissions.

Mary Jane Plapp, Director of Financial Aid.



Lin Stoner, Admissions Counselor.

Walter Wessel, Admissions Counselor.

Maurice W. Boatman, Librarian.

Paul Emmons, Music Librarian.

Tschera Connell, Cataloger.

Candace Manny, Reference Librarian.

Carol Batterham, Periodicals Associate.

Barbara Mickelson, Library Associate.

Thomas M. Butler, Director of Institutional Resources.

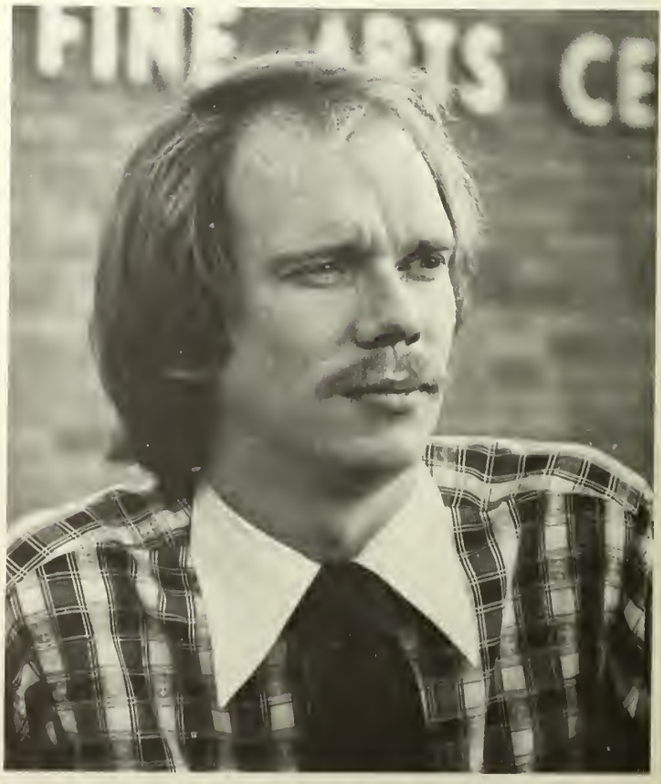
The Millikin University Library with its 132,000 volumes, provides intellectual resources for students and faculty. Non-book materials are being acquired in greater numbers to extend the role of the library into the classroom. Although the constantly growing collection is straining housing capacity, the staff emphasizes service and helpfulness.

Katherine Loftus, Circulation Associate.

Dr. William D. Lewis, Dean of Special Programs.

William R. Merritt, Registrar.

C Larry Songer, Assistant Registrar.

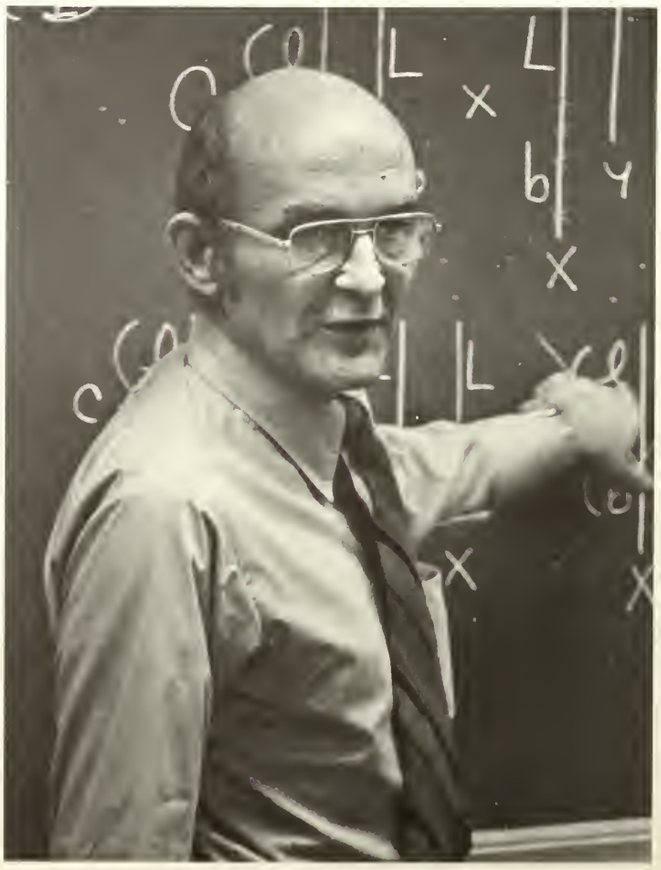


Stuart K. McDaniel, Manager of Kirkland Fine Arts Center

Dr. Malcolm H. Forbes, Dean of the College of Arts and Sciences.

"I do a little bit of everything," Dean Forbes replied when asked what his duties were. "That includes stimulating, facilitating, evaluating, mediating, and communicating." Dean Forbes has a great interest in the interdepartmental majors (student designed majors) and student internships. As almost all of Millikin's staff, Dean Forbes holds the "open door policy"; he is always happy to talk to the students and help them with any problems they might have.

Dr. Lester Shell, Chairman professor.



William Anderson, associate professor.

Dr. Neil Baird, assistant professor.

Dr. Norman Jensen, assistant professor.

James Fisher, instructor.

James Smithson, assistant professor.

Dr. Marcia Dake, Director of Nursing Education Project.

George Glasscock, lab assistant.

Someone fainted during the showing of an open heart surgery movie in the fall comparative anatomy class. Although those students were not allowed to perform such complicated pieces of surgery, they were given the opportunity to practice technique by dissecting sharks and cats in lab.

Unfortunately some of these students did not return to Millikin because of the uncertainty of the Nursing program at the time. The study of this problem was officially given to Dr. Marcia Dake, the new Project Director in Nursing Education at Millikin, Community College of Decatur, and the University of Illinois. Results of a one year study by Dr. Dake could lead to the establishment of a Bachelor's degree nursing program at Millikin, which might finally end the familiar question, "Does Millikin offer a degree in nursing?"

A number of Biology professors were involved in outside lectures and projects during the past year. Dr. Shell, Dr. Baird, and Dr. Jensen attended special meetings for biologists. Mr. Smithson was co-author of an article dealing with water quality research and was also the chief biologist for the project.

Dr. Carl Weatherbee, Chairman, professor.

Dr. Clarence M. Josefson, teaching fellow.

Dr. Fred Grosz, assistant professor.

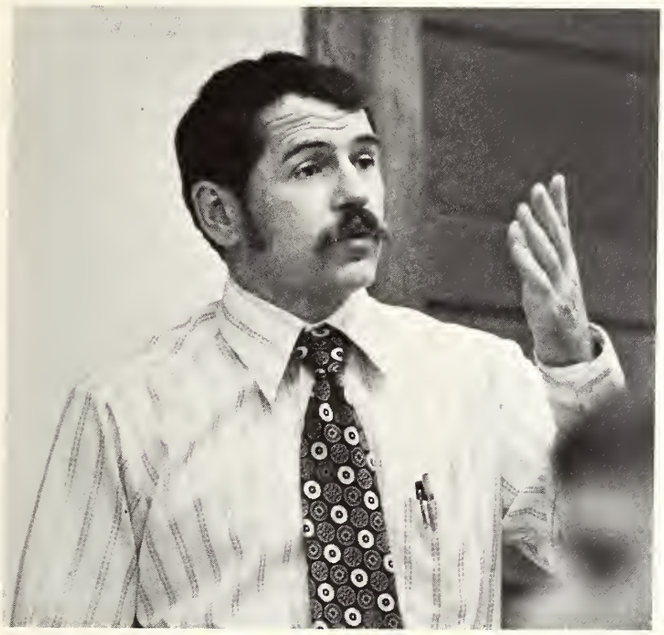
William Pickens, assistant professor.

Chem • is • try

a science that deals with the composition, structure, and properties of substances and of the transformations that they undergo.

Chemistry has become an important part of any science major's curriculum. Beginning with General Chemistry, skills were learned to prepare students for their future in Organic Chemistry, Bio-chemistry, Physical Chemistry and others.

In conjunction with the Biology Department and Environmental Affairs Council, chemists from the student body and faculty worked together on water quality research in the Decatur area. Statistics compiled over the last five years, point a finger at ADM and Staley's as prime sources of water pollutants. Workshops for area high school students were organized, to teach skills in water quality testing and control.

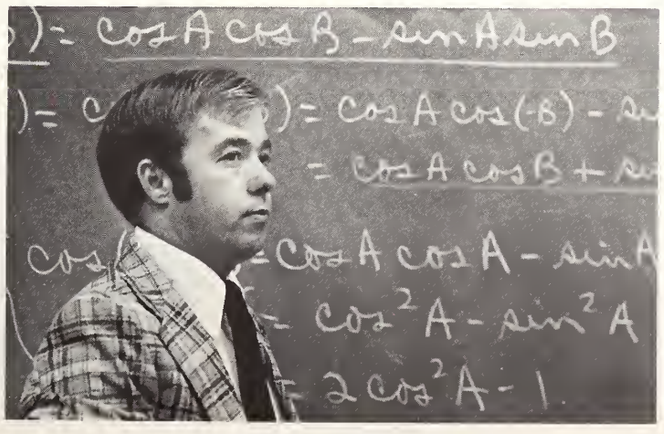


Dr. Alvin Boyd, assistant professor.

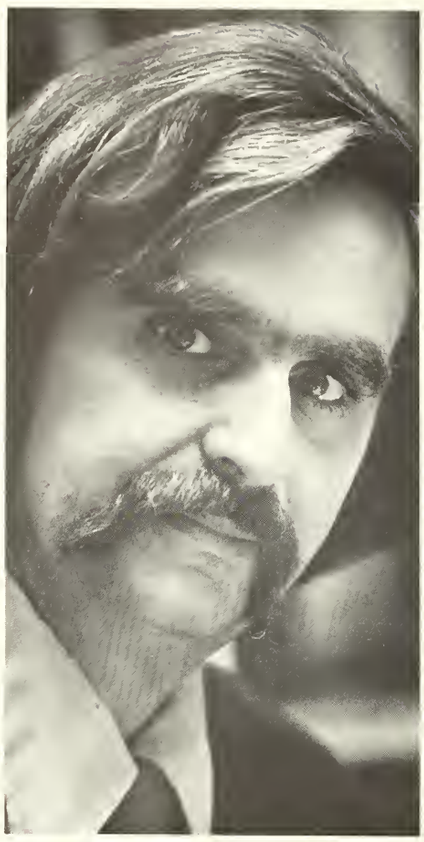
Mathematics is the science which uses easy words for hard ideas . . . . . Edward Kasner.

Dr. Ronald Shelton, Chairman professor.

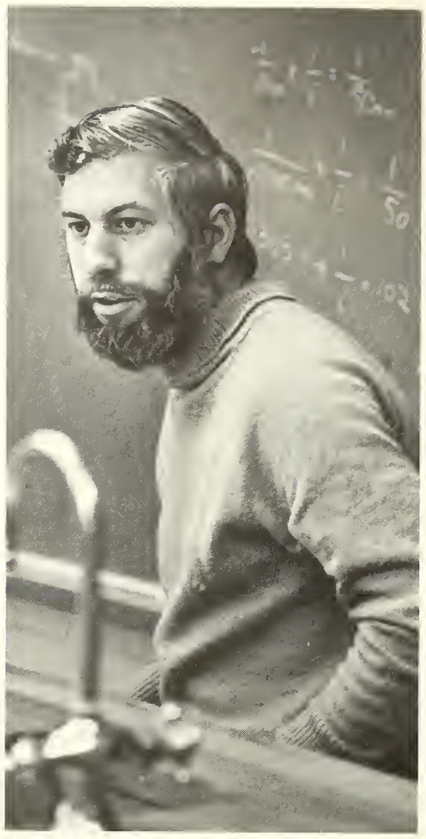
Dr. Fred Connell, assistant professor.



Larry Chapman, assistant professor.



Dr. John Askill, Chairman, associate professor.

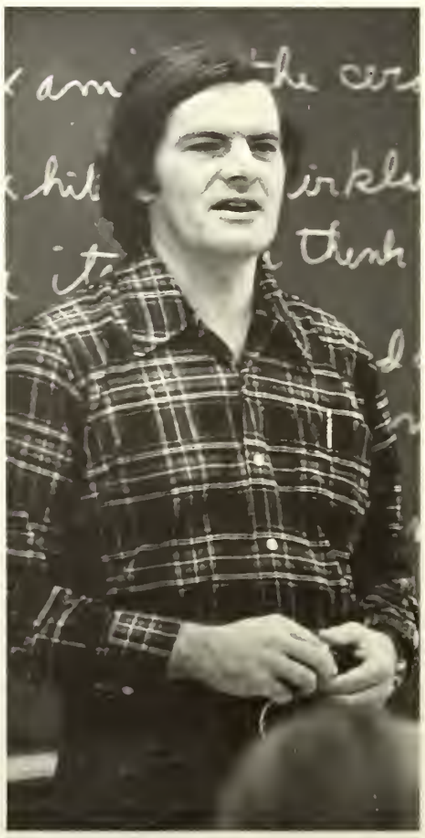


Dr. Loren Weaver, assistant professor.

Physics: a science that deals with matter and energy and their interactions in the fields of mechanics, heat, acoustics, optics, electricity, magnetism, radiation, atomic structure and nuclear phenomena.

Physics classes here at Millikin are not just for those majoring in physics or related courses. Physics of Sounds and Accoustics is offered especially for music majors, and photography is offered for those interested in the finer details of the art of photography.

Dr. Arvid Adell, Chairman, assistant professor.



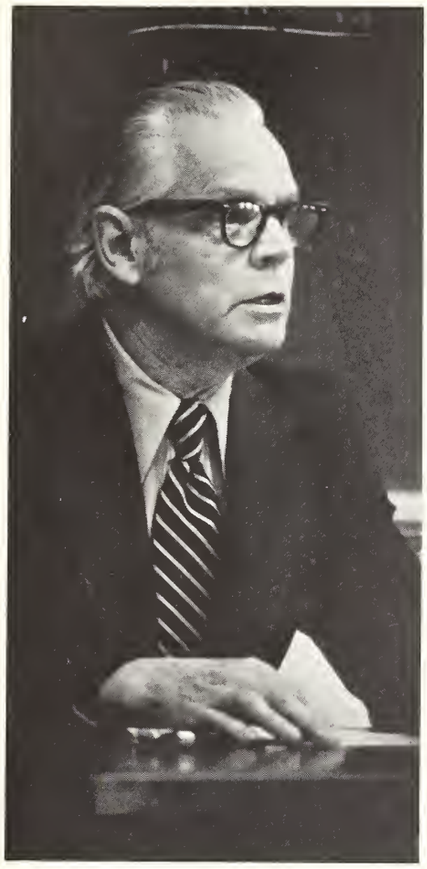
Dr. Frederick Mosedale, instructor.

Instruction and experimentation

in thinking well about a variety of concerns such as aesthetics, theism, epistemology, ethics, atheism, logic, life after death, God's existence, and free will is the purpose of philosophy. To enhance the experiences provided by classes, a newly formed Philosophy Society met bi-weekly. During these meetings a guest speaker would give a short lecture and then open himself up to question and conversation.

A wide variety of courses expressing many interests in the field of religion is presented by the Department of Religion. They believe that while religion is primarily a matter of personal commitment and fulfillment, it should also be a dynamic force in society. In their eyes, every human issue—war, ecology, politics, crime, energy—must be viewed from the perspective of God's will for man's life.

Interests include: the study of the Bible and Christian doctrine (Old Testament, New Testament, Basic Christian Beliefs); religion in history (History of the Christian Church, Religion in America, Religions of Mankind); religion in modern times (Religion in the 20th Century, Religion and Culture of India); religion in interplay with contemporary culture (Philosophy of Religion, Psychology of Religion, Sociology of Religion). Many opportunities for special study are offered—Science and Religion, Religion and the Secular, Fantasy and Humor in Religion, and others of the student's own choice.

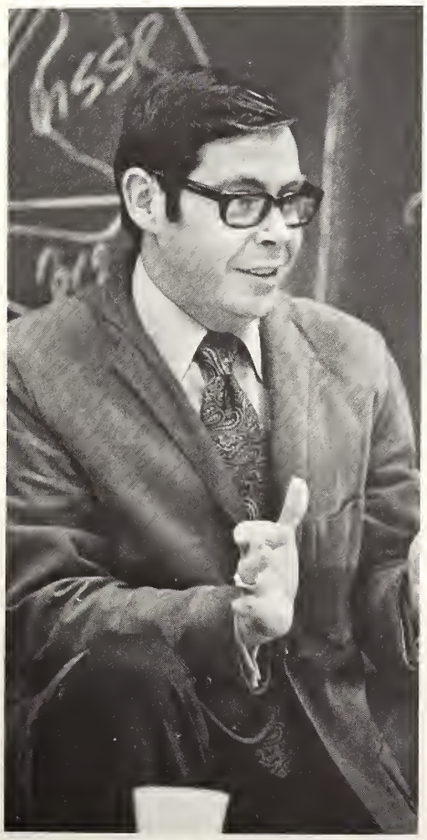


Dr. Edward Wing, Chairman, professor.

Dr. William Bodamer, associate professor.

Millikin will be 75 years old in 1975, and Mr. McIntire of the political science department is doing a study for the university. He also has been working on a bicentennial profile for the county.

The political science department itself was very active. It worked with a mock United Nations and sponsored political speakers. Mr. Bottorf taught a seminar on power and influence which was quite a success.



Dr. Robert McIntire, Chairman, assistant professor.

James Bottorf, instructor.

Dr. Robert Mardock, Chairman professor.

Dr. Stephen Dodge, assistant professor.

Gary Mormino, instructor.

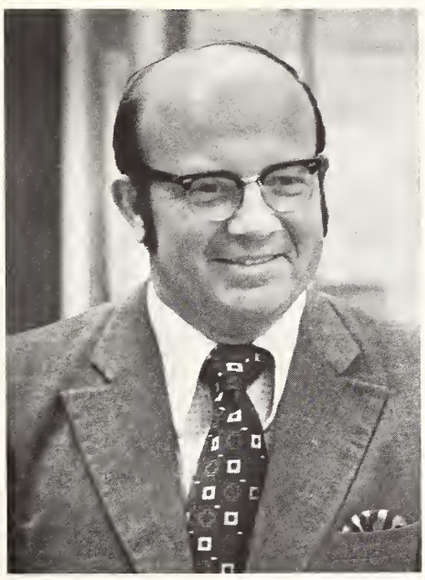
Dr. Graham Provan, associate professor.

Won one and lost one, described the history department this past year. Dr. Robert Mardock, chairman of the department, took a sabbatical at semester in order to study why people migrated west between 1865-1880. The new addition to the department is Gary Mormino, a Millikin alumnus. He graduated in 1968 and has returned to teach history.

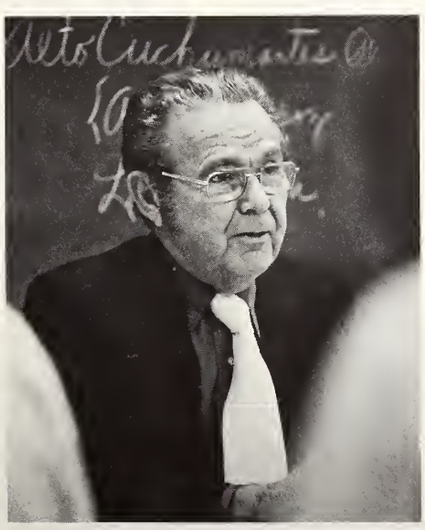
With punch and cookies the education department opened their new office on the second floor of east L.A. Although the office was new, the returning teachers were familiar ones to education students, with the exception of Dr. McAfee. Dr. McAfee began his teaching career at Millikin by teaching secondary methods and guidance in schools.

Associate professor of education, Dr. Richard E. Ferry, was appointed to the Right to Read Advisory Council by the Superintendent of the Macon County Educational Service Region. Dr. Ferry also served on a School Approval Evaluation team and was one of the three persons from throughout the state to evaluate the Bloomington area reading program.

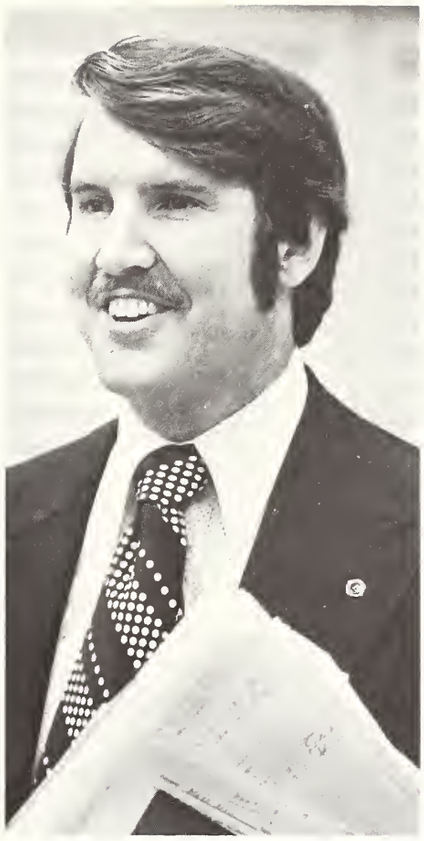
Dr. Halice Wiggs, associate professor, Director of Teacher Placement.



Dr. David McAfee, assistant professor.



Clyde Browning, associate professor.



Dr. Jerald Hunt, Chairman, associate professor.

Dr. Richard Ferry, associate professor.

Dr. Arthur Hopper, Chairman, associate professor of theatre arts.

Dr. Richard Hossalla, assistant professor.

Dr. Stacy Myers, assistant professor.

The first forensic organization on the Millikin campus in five years was sponsored by the Department of Communications and Theatre Arts. The forensics team competed in meets at Ball State, University of Wisconsin, Bradley, and Greenville College. Meets featured debate, as well as individual events of extemporaneous speaking, after dinner speaking, poetry interpretation, and dramatic duo.

1974-1975 was a very good year for theatre arts. Under the direction of Dr. Richard Hossalla, Millikin was hit with the musical comedy "Music Man"; Showcase Theatre's production of "The Effect of Gamma Rays on Man-in-the-Moon Marigolds" which was selected as the Illinois alternate for the American College Theatre Festival in Milwaukee; a revue of musical selections from the hit musical "Jacques Brel is Alive and Well in Paris"; "Arms and the Man", "Street Scene", and "Marat/ Sade".

The year was a good one but ended on a sad note when it was learned that Dr. Hossalla had accepted a position as the Director of Theatre at Capital University in Columbus, Ohio.

Keith Johnson, instructor.

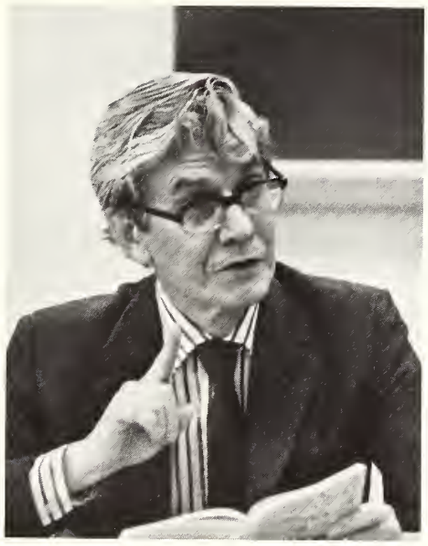
Highlights included of the 1974-1975 school year for the Foreign Language Department included . . . .

Dr. Castaneda's special Spanish program for 100 local children . . . . .

A new method of teaching German, which permitted the student to attain a higher level of fluency in a shorter time . . . .

Carol Ross received her Doctor's Degree in German . . . . . .

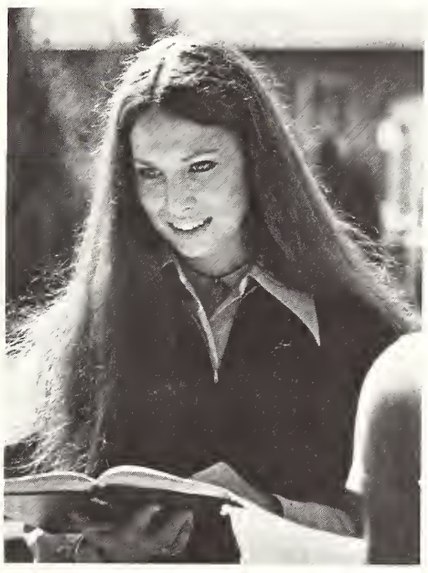
Many Richland Community College students and alumni auditors elected to take language courses at Millikin.



Dr. William Ferris, Chairman, professor of French.

Dr. Concepcion Castaneda, associate professor of Spanish.

Robert Vicars, assistant professor in French.

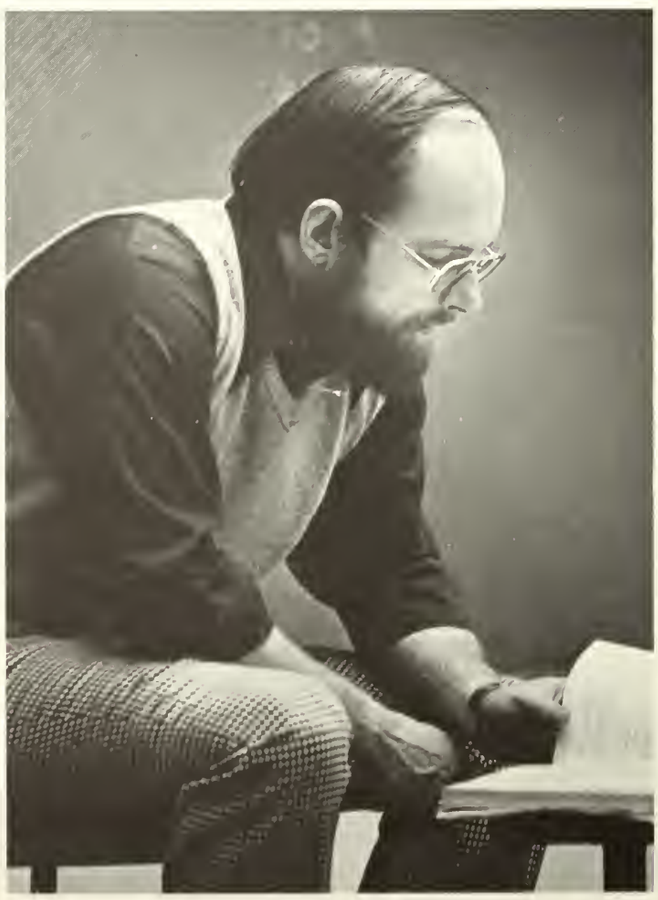


Dr. Carol Ross, instructor in German.

Mary Lauerman, instructor in French.

Dr. Carol Paul, associate professor of German.

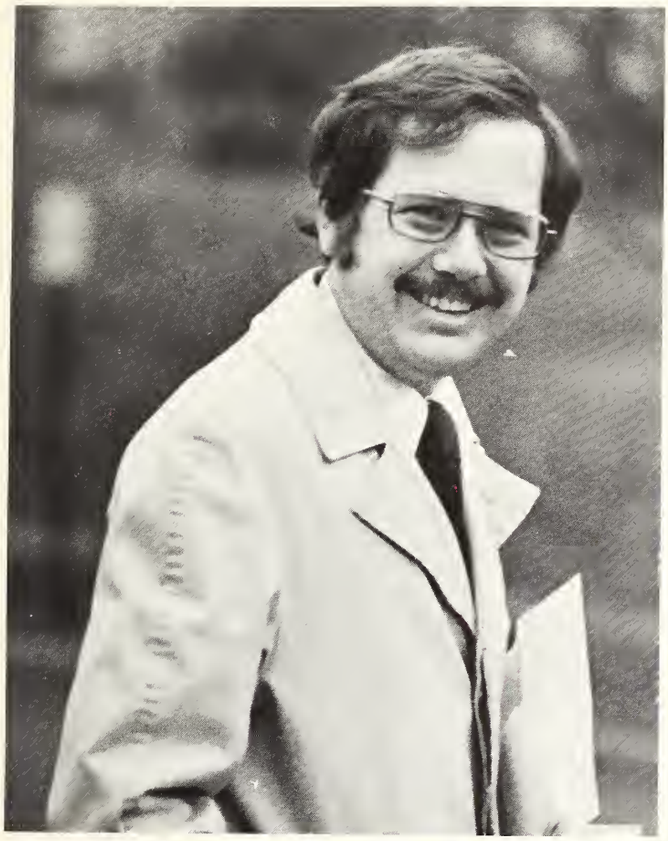
Dr. Henry Gromoll, Chairman, professor of psychology.



Dr. Gordon Forbes, associate professor.

What were psychology students doing in Scovill labs in 1975? Why weren't they back in the psych annex? The answer was simple—they were using laboratory equipment to weigh out rat food for experiments with white rats. Students conducted many experiments throughout the year and many unsuspecting roomies were subjects of various tests. The tests were harmless; most of them dealt with memory, or lack of memory, as the case would be.

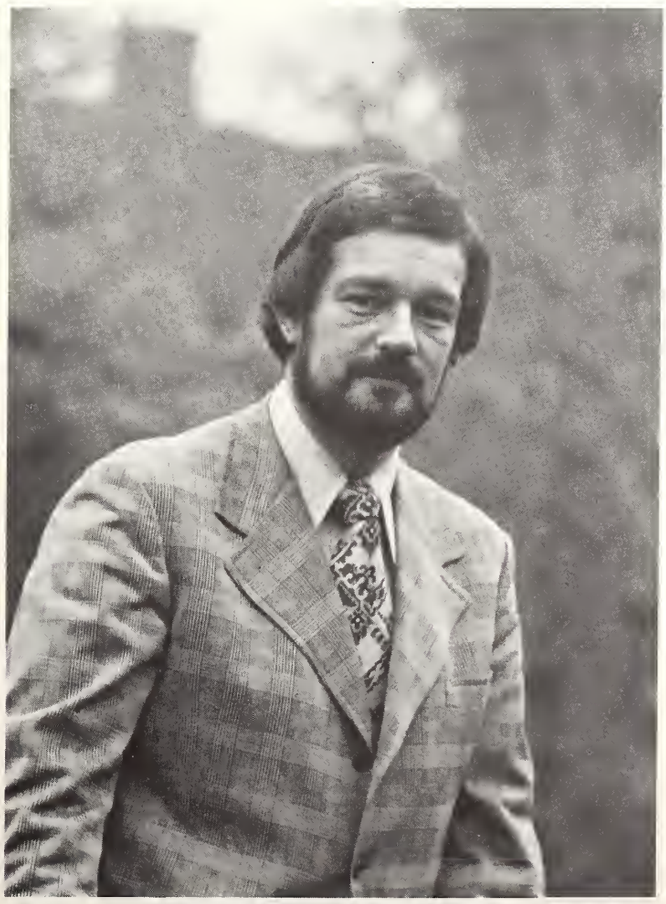
A new face appeared this year . . . that of Daniel L. Roenker. Dr. Roenker, a graduate of Thomas Moore College and Kansas State University, came from Iowa State University where he held the position of assistant visiting professor.



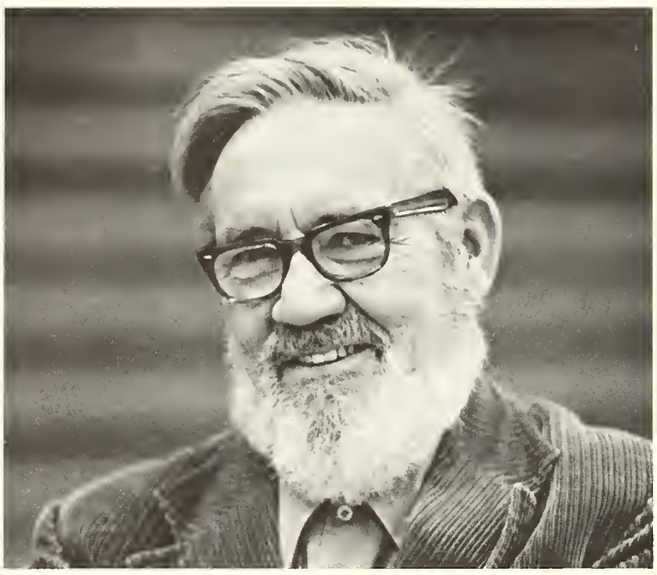
James Mannon, assistant professor.

Dr. Daniel Roenker, assistant professor.

Valerie Ward, instructor.



Charles Heiden, adjunct instructor.



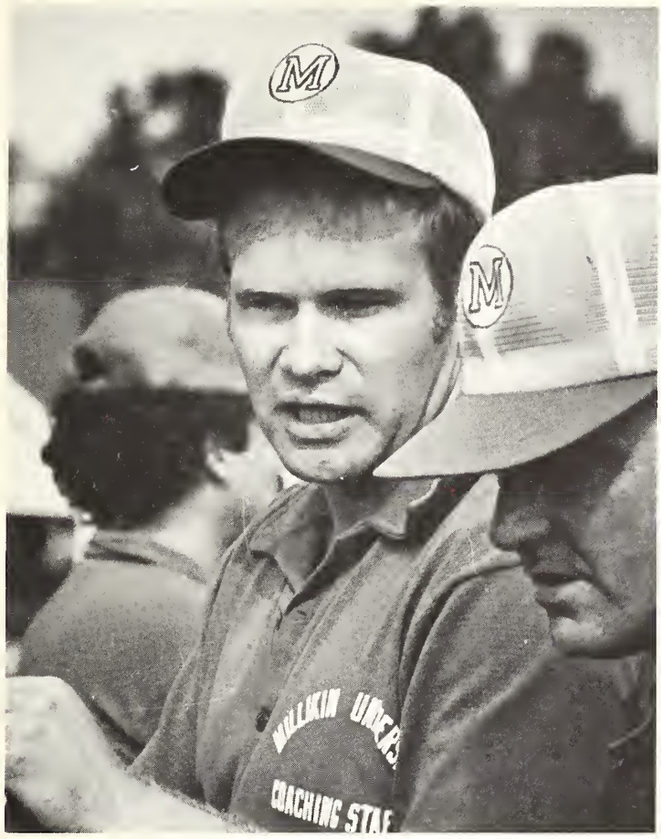
Ralph Allen, Chairman, associate professor.

Harriett Crannell, assistant professor.

Carl Johansson, swimming/cross country coach.

Most students did not have to take any P.E. courses at Millikin during their four year stay, but many elected to do so. Those were the P.E. majors, the P.T. majors, sophomore women who had been hit with sophomore "slump" in all the wrong places, and those who just wanted to get out and do something.

The P.E. Department offered courses to interest just about everyone. Included were cycling, bowling, swimming, and the favorites—basketball, football, and conditioning.



Carl Poelker, wrestling/assistant football coach.

Guy Neibuhr, track/assistant football coach.

Jerry Gray, basketball/golf coach.

Merle Chapman, Associate Director of Athletics, assistant football coach.

William Kreuger, associate professor.

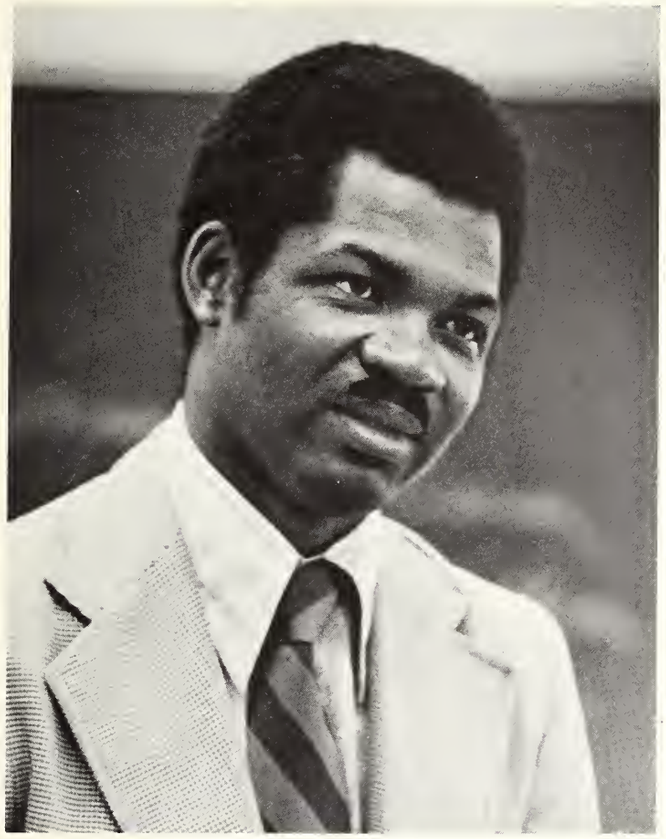
Dr. John Hall, assistant professor.

Dr. Brian Mihm, assistant professor.

Over the past few years the English Department has moved to expand and broaden the type of offerings presented by this section of the Humanities Division. For students desiring an interdisciplinary approach to their major, the English Department now includes a full program, in cooperation with other departments, of courses in American Studies. In response to growing interests in journalism and publishing, new courses in journalism and mass media were offered, and plans have been made to expand this field of study.

A variety of writing courses, for students interested in either creative writing or professional writing work, were taught by several members of the faculty. And an exciting course in Literature of the Film drew large numbers of students who saw a knowledge of the film media as useful in many professions.

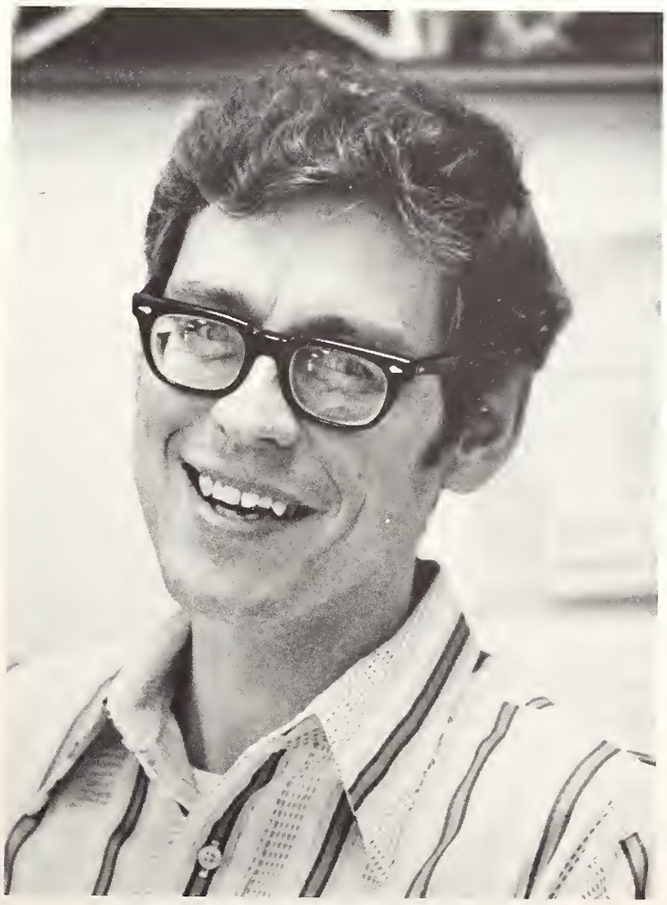
A full range of literature courses and courses in grammar and the history of language continued to prepare students for graduate school, teaching, and other careers.



Dr. Michael Onwuemene, assistant professor.

Dr. Daniel Guillory, assistant professor.

Doris Mabry, lecturer.



Dr. Richard Pacholski, associate professor.

C. Richard Decker, Dean, School of Business and Industrial Management.

Nicholas Kargas, Chairman, assistant professor of accounting.

William Chapman, assistant professor of accounting.

David Marshall, associate professor of accounting.

On February 28,

Mr. Gaston, Dr. Rocke and sixteen students attended the annual meeting for college marketing students and staff sponsored by the St. Louis Chapter of the American Marketing Association. The meeting was held at Stauffer's Riverfront Inn at St. Louis. At the meeting Kathy Heck was awarded a plaque as Millikin's outstanding senior marketing student. Plaques are awarded annually by the St. Louis Chapter to one outstanding student from each of the participating schools.

The committee of Millikin faculty and students who selected Kathy also nominated Chris Udell to receive the Central Illinois American Marketing Award for Outstanding Senior Students at their spring meeting.

Students in marketing research and mass communications classes worked with local business firms on specific problems affecting these firms.

Dr. Rocke spent part of January in New Zealand studying Marketing Education.

Jack Gaston, Chairman, associate professor.

Dr. Donald Rocke, associate professor.

Joseph Puckett, assistant professor of economics.

Dr. William Williams, professor of industrial engineering.

Danny Benner, assistant professor of industrial engineering.

The Division of Engineering and Industrial Management strove to provide the organizational and educational climate conducive for those young men and women who had the aptitude and perseverance to pursue a rigorous curriculum and who had an interest in applying knowledge of the humanities, sciences and technology toward the solution of problems afflicting mankind.

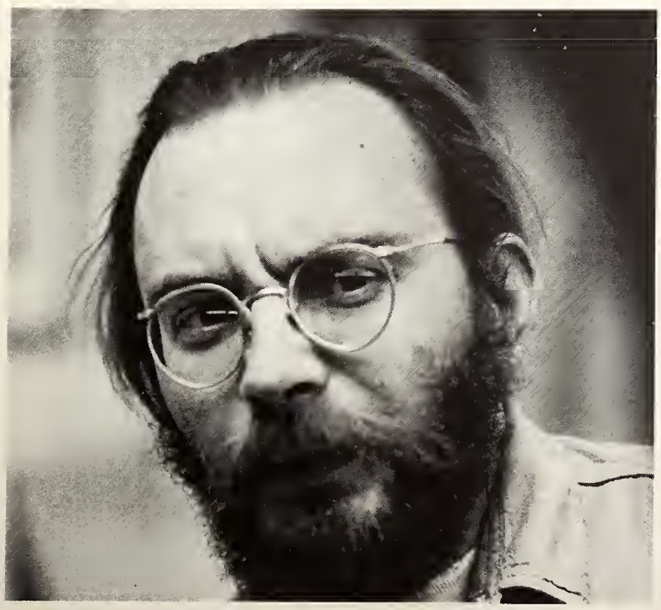
Reliable data indicates that there will be at least 40,000 position openings for engineers every year for the next ten years, and the shortage of graduates will leave 5,000 positions unfilled in every one of those years.

The placement percentage of the graduates from the Division of Engineering and Industrial Management has essentially been 100% for the last several years.

It is anticipated that by 1980, fully 30% of those students graduating from the Division at Millikin University will be female.

Marvin Klaven, Chairman, professor.

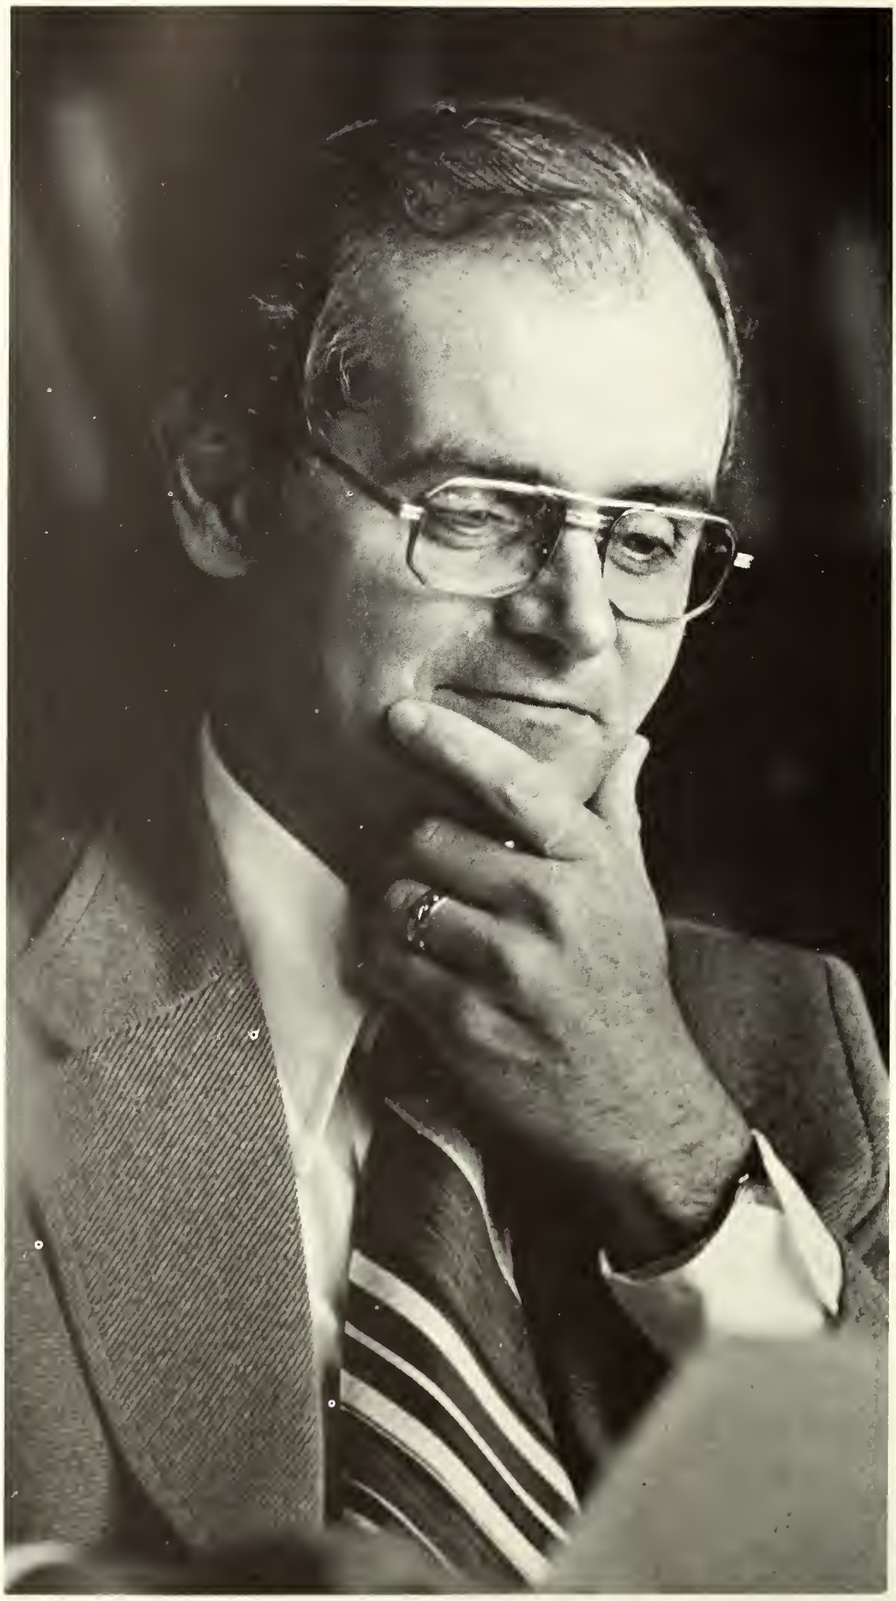
Gail Olsen, associate professor.



Rimas VisGirdas, instructor.

An "art" major

on the Millikin campus could sometimes be recognized by the tell-tale clays stains on faded jeans or by the many projects displayed throughout the room. Dedicated art students spent many hours in Kirkland working on paintings, sketches, nail poundings, or in the pot shop "throwing" pots of all sizes and shapes. Efforts were rewarded and students' works were exhibited in the Kirkland Art Gallery. The show included water colors, oil paintings, jewelry, and pottery. Many of the items were for sale, and most of them were sold. The show was a success judged by the number of students who came to see it. Instructor Rimas VisGirdas had his own ceramics exhibit in Kirkland early in the school year. The works were done in California during the summer of 1974 and in the fall of 1975.



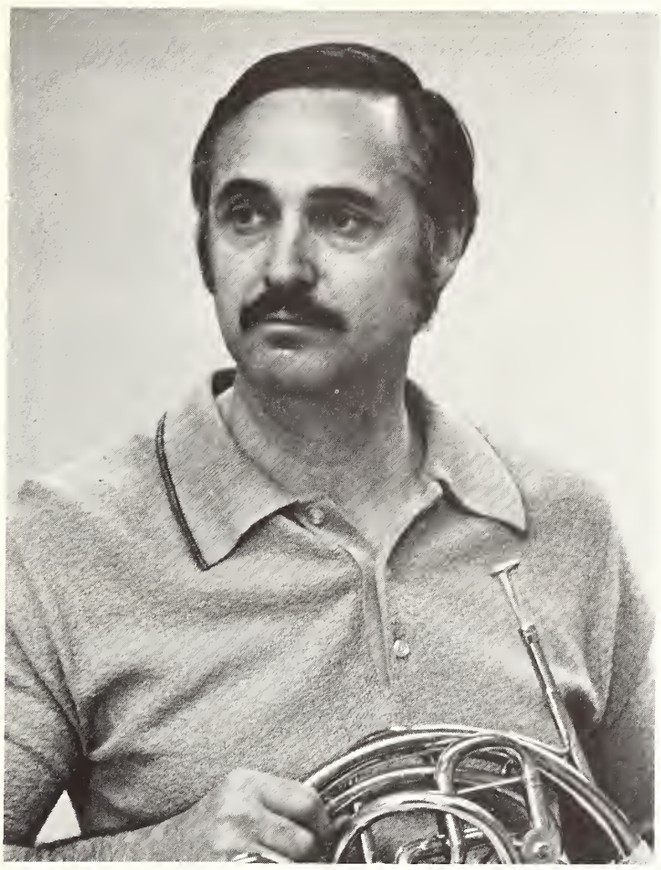
Dr. Clayton W. Henderson, Dean, School of Music.

Two main phases

of the music program have been explored by Dr. Henderson and the faculty. They evaluated the present curriculum and investigated new professional areas, including a degree program in Music Theatre and one that might combine courses in Music with those offered in the School of Business and Industrial Management. The second area of immediate interest was in providing performances for the University Community in addition to the recitals and concerts in Kaeuper and Kirkland. They planned to initiate a series of informal noon-time outdoor appearances by music faculty and students.

1974-75 marked new beginnings in the music education department. A degree program was established with a Bachelor of Music in instrumental music with jazz emphasis. In addition to jazz performance, the degree work included courses in jazz theory, history, and training in doubling on second and third instruments besides the major instrument.

To give more practical preparation for student teaching, method courses for seniors will now include a large amount of observation and actual teaching experience in school music situations. Also, a new winter term course was offered, providing students an opportunity of working full-time for a month with a professional music teacher.



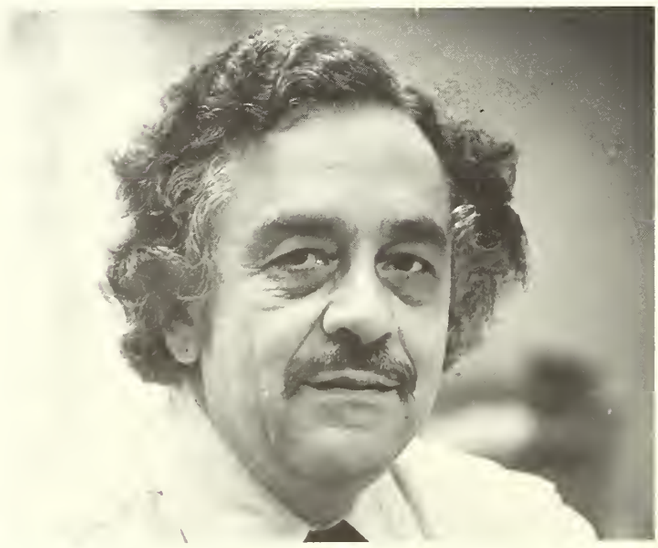
Dr. Russell Tiede, Chairman, Department of Music Education and Church Music.

Many recitals were given throughout the year by Applied Music students and faculty members. Some students and faculty members also performed in groups and orchestras. These activities entertained many people—even those who were not music majors.

Besides spending many hours of long practice in the "conserve", some enterprising students spent their Winter Term building a harpsichord, which is now in use.

Jean Northrup, Chairman, Department of Applied Music.

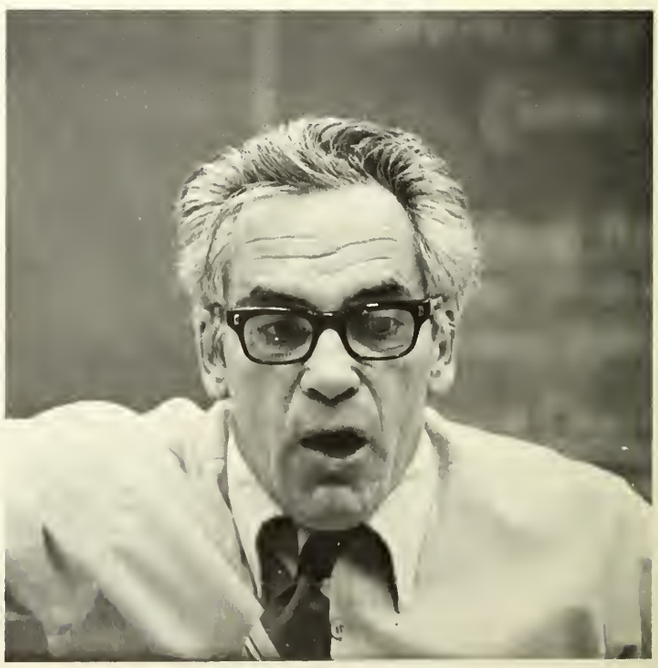
David Bates, assistant professor.



Richard Collins, professor.

Dr. Ronald Gregory, professor.

Robert Hearson, assistant professor.



Richard Hoffland, professor.

Margaret Peterson, associate professor.

Douglas Phillips, assistant professor.
